Arquimedes professional Arcon type articulator (semiadjustable) **A7 PLUS**

Ref. 010099 Articulator + Case

Robust structure made of aluminum, ensuring greater stability. Design that provides greater visibility.

- ✓ Semiadjustable / Arcon.
- ✓ Fixed intercondylar distance (110 mm)
- ✓ Curve condylar guide.
- ✓ Regulable condylar guide.
- ✓ Regulable Bennet angle.
- ✓ Central lock.
- ✓ Stabilization system of the condilar guide movement with silicone connection.
- ✓ Support for upper branch in open position.

Arquimedes protrusal Arcon type articulator (semiadjustable) **A7 PLUS-E**

Ref. 010103 Articulator + Case

Similar to the Archimedes Pro model, it has exclusive aluminum condylar guides with millimeter adjustment.

- ✓ Semiadjustable / Arcon.
- ✓ Fixed intercondylar distance (110 mm).
- ✓ Regulable condylar guide.
- ✓ Regulable Bennet angle.
- ✓ Flat condylar guide.
- ✓ Bilateral locking system.
- ✓ Support for upper branch in open position.
- ✓ Stabilization system of the condilar guide movement with spring.

4.000 S Arcon type articulator (semiadjustable)

Ref. 010107 Articulator + Case

- ✓ Semiadjustable / Arcon.
- ✓ Adjustable intercondylar distance (expanding spindle).
- ✓ Curve condylar guide.
- ✓ Regulable condylar guide.
- ✓ Regulable Bennet angle.
- ✓ Stabilization system of the condilar guide movement with O-ring.

Arquimedes Junior (semiadjustable) **A7 FIX**

Ref. 010098 Articulator + Carboard box

- ✓ Semiadjustable / Arcon.
- ✓ Fixed intercondylar distance (110 mm).
- ✓ Condylar guide set at average 30°.
- ✓ Bennet angle set at average 15°.
- ✓ Curve condylar guide.
- ✓ Magnetic stabilization system of the condilar guide movement (built-in).
- ✓ Support for upper branch in open position.

Standard face bow

Ref. 010102-50 CE Medical devices

The **Standard** face bow is an apparatus used to record the spatial position of the patient's upper dental arch in relation to the skull and transfer the record to the articulator.

Transfer of the patient record is performed by setting the complete face-bow in the upper frame of the articulator.

Elite face bow

Ref. 010100-55 CE Medical devices

The new Elite face bow brings an articulated and fixation system for the fork that allows a faster registration process for the professional and comfortable for the patient.

It has a jig transfer assembly that eliminates the needs for face-bow in the assembling process of the casts in the articulator, turning the process faster, more practical and stable. Its Naziun Relator with adjustable height, including an infra-orbital indicator, turns the registration process more precise.

The face-bow is equipped with a sliding system which allows smooth lateral movement (opening/closing) and facilitates the overall use. The ear pieces are anatomical, removable and chemically sterilized.

Diameter	Height	Capacity	Weight
110 mm	78 mm	400 cm³	0,100 kg

Mouth mirrors

Top quality mirrors meeting all THE required standards. They all are plane with stainless steel chassis. They are available in silver (normal) and rhodium.

In the case of rhodium, reflecting surface is in the upper part of the mirror, so that light does not have to make two changes of element (air/ glass; glass/air) creating different refraction angles. As a result the image is more clear and with no distortions.

There are four different sizes: Plane N°3, N°4, N°5 and N°6. These also have two kinds of thread: cone socket and simple stem.

Cone socket

Plane	Normal	Rhodium
N° 4	070551	070560
N° 5	070552	070561
N° 6	070553

Base former with magnet

Ref. 050110=SP

Ref. 050120=IP

Ref. 050130=SG

Ref. 050140=IG

INSTRUCTIONS FOR USE

1. Fit the base former with the metal plate.
2. Empty the impression as usual.
3. Insulate the model and fit the magnet on the metal plate.
4. Make the counterform that will remain fixed in the articulator pouring coating plaster on the model; let it polymerize. Then separate the model carefully from the counterform (which can be reused for another model).

Drill cleaning tongs

Ref. 070520

Ideal for immersion of drills and other small items in disinfectant baths, ultrasonic equipment and autoclaves.

Made of stainless steel.

(L) 156 x (W) 45 x (H) 40 mm | 0,021 kg

Fox plane (plastic)

Ref. 070510

Made of plastic sterilizable at 135° C.

(L) 180 x (W) 130 x (H) 6 mm | 0,038 kg

Cofferdam arc holder

Ref. 070045

Of special heat-resistant plastics allowing it to be sterilized, unbreakable and radio transparent.

Ref. 070050

Made of metal.

Germicide box for burs (stainless steel)

Ref. 070530

Ø 70 x (H) 35 mm | 0,119 kg

Germicide box for burs

Ref. 070531

Ø 90 x (H) 80 mm | 0,122 kg

Magnetic bur holder

Ref. 070115

Very practical with an attractive design. Its small size means it can be placed anywhere.

Supplied in a batch of three products. Colours: red, green and blue. Ø 62 mm

Ø 62 x (H) 49 mm (1 u.) | 0,182 kg

 (L) 200 x (W) 40 x (H) 60 mm | Packing (3 u.) | 0,583 kg

Bur holder (plastic, sterilizable)

Only the base, made of temperature resistant plastic. Capacity for 36 pieces.

Made for: FC, CA, FC+CA, laboratory.

Ref. 070120 | (L) 75 x (W) 60 x (H) 35 mm | 0,060 kg

Disposable trays (100 u.)

Ref. 100219 Complet kit

Hygienic and disposable trays. They save time and detergent because they cut out cleaning operations. They are adjusted to the specific dimensions of each patient by applying heat.

Transparent, so they can be used in implantology.

Available in 10 different shapes and sizes.

Contents of the box:

10 units - UL - UM - US - P1
10 units - LL - LM - LS - P2
10 units - PB - PA

Disposable trays (100 u.) with retention

Ref. 100222 Complet kit

Made of a very resistant plastic, and therefore rigid and non-deformable. Thanks to their anatomic design and to the different sizes and shapes available (10 options) they can be easily adaptable to any patient. They feature inner retention to prevent unwanted movements of the alginate. Besides, their base has several cuts so that -if necessary- windows can be easily opened with a drill, thus avoiding the implant posts.

Magnification 2,5x

Ref. 100076

Magnification 3,5x

Ref. 100077

NEW

Lightweight, handy and with excellent panoramic and clear vision. The magnifier is essential for clinical and laboratory procedures.

Manufactured with CR-39 resin, higher resistance against abrasion and excellent and excellent transparency.

Magnifying glasses

Adjustable system that adapts to the head and keeps the hands free to work. It has Ultra clear lens of minimal light absorption. It can be worn over glasses.

There are three different models available:

Ref. 100079		(L) 285 x (W) 225 x (H) 89 mm	0,55 kg
Ref. 100080		(L) 205 x (W) 185 x (H) 70 mm	0,25 kg

Mulhacén model trimmer - Sandpaper

Ref. 080093

Mulhacén model trimmer - Carbide

Ref. 080094

Mulhacén model trimmer - Diamant

Ref. 080095

Modern and versatile model trimmer. It features a powerful 1600 W motor with integrated brake, opening lid for easy access to the disc, operation warning light, discs with hook-and-loop type (Velcro®) fastener, sophisticated cleaning system, adjustable worktable... and an endless list of elements which make it probably the most complete model trimmer in the market. Unbeatable quality/price ratio.

- ✓ Easily removable cover (wide-opening hinge). Easy to clean and easy access to the disc.
- ✓ Made of very strong technical plastics.
- ✓ Corrosion free.

- ✓ Hook-and-loop (Velcro®) type abrasive disc. High cutting power and very easy to replace

Voltage	230 V - 50-60 Hz	Speed	3000 r.p.m.
Rated power	1600 W	Dimensions	(L) 340 x (An) 340 x (Al) 420 mm
Disc diameter	250 mm	Weight	14,5 kg

(L) 400 x (W) 530 x (H) 440 mm | 13,5 kg

CAUTION!

Diamond discs are very heat-sensitive: do not trim or rectify metal pieces or coatings.

Mulhacén model trimmer

Sandpaper DRY Ref. 080096

The main characteristic of the trimmer is that the surfacing operation is performed dry.

- ✓ Stability of the material to be trimmed, since it is not wet.
- ✓ Higher performance and longer life, minimal effort.
- ✓ Optional exhauster (essential).

Ref. 080538

Ref. 080539

Serantes model trimmer

Sandpaper disc trimmer

Diamant disc trimmer

Ref. 080097

Ref. 080098

Ultra compact. It may be the trimmer currently on the dental market, with smaller dimensions. The concept of him derives directly of the **Mulhacén model (080093)**, with which it shares many of its performance and characteristics, except for dimensions. In this sense we can speak of a powerful 1600 W motor with integrated brake, lid with easy opening to access the disc, discs with easily changeable hook / loop type fixation, water cleaning system, high resistance composite manufacturing and of course no corrosion, etc.

Ideal for general dental applications and especially for those environments in which the user does not have much space, but who nevertheless does not want to give up the possibilities that a completely professional trimmer offers in terms of productivity and quality: the size of the table and window have been studied so that it can be used in jobs similar to those carried out on larger trimmer models.

The **Serantes** trimmer is supplied in three different versions, all of them with a hook/loop disc fixing system:

- ✓ With a choice of conventional 80 or 120 grain abrasive disc. General purpose version ideal for any dental user.
- ✓ With diamond disc: Designed for demanding environments in those that speed and productivity are key aspects.
- ✓ Dry, without water circuit: Designed for environments where the water supply and drainage are difficult to install or for professionals who do not want to wet the models.

Serantes is fully compatible with the MESTRA range of decanters. Supplied with 2 sandpaper discs.

Ref. 080097

Ref. 080098

Sandpaper disc DRY trimmer

Ref. 080099

- ✓ Easily removable cover (wide-opening hinge). Easy to clean and easy access to the disc.
- ✓ Made of very strong technical plastics.
- ✓ Corrosion free.

- ✓ Hook-and-loop (Velcro®) type abrasive disc. High cutting power and very easy to replace

Voltage	230 V - 50-60 Hz	Speed	3000 r.p.m.

Model trimmer (Classic)

Silicon carbide disc trimmer:

Ref. 080080 Ref. 080082

Diamond disc trimmer:

Ref. 080081 Ref. 080083

The MESTRA model trimmer is a strong and robust machine, featuring the latest improvements and innovations required by a machine of these characteristics. Its robustness can be seen at a glance and its weight of more than 21 kg (maximum on machines of this type) added to the use of non slip rubber feet assures perfect stability during facing operations.

It runs noiselessly as the special resin wheel is carefully balanced. The wheel is mounted on an aluminium plate, thus achieving a larger working area as it has no shaft or external nut hinder grinding operation in this area. The motor is provided with guards, giving a more compact and harmonious appearance, while ensuring safe operation, preventing any possible accident.

The MESTRA trimmer is equipped with an electro-valve for electronic feed of water by pressing a switch. This switch is protected with a PVC insulating cover to prevent any electric shock due to humidity. It also has an earth cable. Water flow is directly adjusted from the machine through an adjustment valve.

The drainage system is of lateral type, designed to prevent clogging as the drain hole is oversized 30 mm and the water carrying plaster particles is driven outward by the air turbulence generated by the wheel.

The component supporting the patterns is of tilting type with three positions. The motor is monophasic, and is insulated from the wet area of the machine by means of a retainer with a stainless steel spring for a perfect fit on the motor shaft end. The motor shaft is made of hardened and ground stainless steel. The MESTRA model trimmer is entirely made of aluminium except a few components made of stainless steel.

The machine is painted with epoxy paint, and always looks as good as new.

Power	20 W
Weight	7 kg

(L) 490 x (W) 475 x (H) 490 mm | 9,5 kg

Finishing box Eclipse

Ref. 080216

NEW

- ✓ High luminosity LED lamp.
- ✓ Absence of shadows inside.
- ✓ Ergonomic work position.
- ✓ Optimal absorption of powder by means of external suction (not included).
- ✓ Easy cleaning.

Dimensions	330 x 360 x 275 mm
Weight	3,8 kg

Eclipse I sandblaster

Ref. 080221 1 Tank

NEW

Dimensions	330 x 360 x 450 mm
Operating pressure	2 a 5 atm.
Max. air consumption	80 l/min
Inside light	LED
Weight	5,7 kg

Work box Eclipse II

Ref. 080220 2 Tanks

NEW

Cabin entirely made of ABS of reduced dimensions maintaining the amplitude in the work area and with a substantial improvement in lighting. They have two mobile micro-blasting nozzles and, in the hopper version, a large sand tank and a 3 mm static gun.

- ✓ Interior light LED.

Dimensions	450 x 360 x 330 mm	Pressure	2 a 5 atm
Air consumption	80 l/min.	Weight	5,7 kg

Finishing box Eclipse with built-in suction

Ref. 080217

NEW

Box with similar features to the Eclipse finishing cabin (Ref. 080216), but with the particularity of integrating its own aspiration unit.

Its small dimensions make it ideal in places with little space, where it is important to keep the environment clean without the need for bulky vacuum equipment.

If necessary, it is possible to incorporate the machine to an external suction source.

Dimensions	400 x 360 x 275 mm
Weight	2,8 kg

(L) 410 x (W) 370 x (H) 370 mm | 3,8 kg

Sandblaster Orión

Ref. 080214

- ✓ High luminosity LED lamp.
- ✓ Absence of shadows inside.
- ✓ Ergonomic work position.
- ✓ Optimal absorption of powder by means of external suction (not included).
- ✓ Includes a wedge in the interior with support for micromotor.
- ✓ Easy cleaning.

Dimensions	330 x 360 x 300 mm
Weight	3,3 kg

Eolo Induction aspiration unit

Ref. 080533

Its brushless induction motor extends its useful life between 5 and 10 times compared to traditional models. It has an innovative double filter system optimized for work in the dental clinic (including abrasives such as rust aluminum). It can be mounted with HEPA filter.

Electronic control with LCD screen, equipped with protection systems against overloads or obstructions, visual indicator of the filter filling level and the detection of the micromotors. It allows manual or automatic operation synchronized with up to 3 different devices (sandblasters, micromotors, etc.).

Dimensions	500 x 210 x 585 mm
Weight	17 kg
Power	750 W
Noise	65 dB

 (L) 550 x (W) 320 x (H) 620 mm | 20 kg

Ciclón dust decanter

Ref. 080535

It is a simple device to be connected to the inlet pipe of a conventional Aspiration Unit for pre-filtering dust particles. The air circulates along a circuit that makes the dust particles fall into an inner tank.

More than 99% of the aspirated dust and dirt is removed, reducing the risk of obstruction of the aspiration pipes and making the working life of the aspiration filters considerably longer.

- ✓ The dust tank is easily accessible and, therefore, cleaning the device is a comfortable and simple task.
- ✓ The device features Widhring elements especially adapted to MESTRA's EOLO aspiration, with which it makes up a high performance compact unit.
- ✓ CICLÓN is built in high resistance polypropylene.

Dimensions	590 x 275 x 155 mm
Weight	2 kg

 (L) 520 x (W) 300 x (H) 360 mm | 3 kg

Gemini aspiration unit

Ref. 080539

*Unsuitable for micro-motors.

Dimensions	433 x 406 x 633 mm
Weight	10,4 kg
Voltage	230 V
Motor	1200W (2 etapas)
Noise	68 dB
Capacity	36 litros
Potentiometer	650-1200W
Detection from	100 W
Aspiration	Sólidos y líquidos

 (L) 480 x (W) 450 x (H) 710 mm | 14 kg

Gemini mini aspiration unit

Ref. 080538

For use in locations with reduced space.

*Unsuitable for micro-motors.

Dimensions	350 x 350 x 390 mm
Weight	7,3 kg
Voltage	230 V
Motor	1150W
Noise	68 dB
Capacity	9,56 litres
Potentiometer	650-1150W
Detection from	100 W
Aspiration	Solids and liquids

 (L) 370 x (W) 360 x (H) 530 mm | 9 kg

Sirocco suction units

It is difficult to find a manufacturer in the dental sector that offers such a wide range of professional suction units as the Sirocco family, covering any possible need that may arise with the most suitable model for each case.

In addition, the modular and scalable nature of this range provides solutions for both clinical and laboratory use, allowing the user to choose from a multitude of options, such as unit size, arm type, filtering system, etc.

Although the number of alternatives and accessories is enormous, all units follow the same script: they are extremely quiet, aesthetically appealing suction units incorporating powerful induction motors (with a longer life than traditional models) and very economical consumables, with the level of quality that MESTRA guarantees in all of its products.

Induction motor
(brushless)

Efficient low-noise
suction (55 dB)

Strong
suction power

Easy removal
and cleaning of
the reusable filters

Sirocco S

Ref. 080534

Suction especially suitable for clinical and laboratory environments, it is the perfect size for desktop use and has a sleek aesthetic.

The Sirocco S model incorporates two stages of filtration: a first circular HEPA (High Efficiency Particulate Array) filter and a second internal HEPA filter.

Thanks to its efficient design, the filter change operation is extremely simple. The unit also features an external micromotor detection system and seven different power levels.

Sirocco S - Technical characteristics

Height	135 mm	Weight	3.1 kg
Width	280 mm	Power	350 W
Depth	280 mm	Noise	55 dB

- ✓ Powerful induction motor.
- ✓ Intuitive "touch" keypad.
- ✓ Easy to use and change filter.
- ✓ Exceptionally quiet.

Ref. 080534AT

Basic configuration of the Sirocco Model S table-top suction unit, supplied with a flexible and extendable hose up to 700 mm for directing the suction to the work area. It allows small and delicate polishing and reworking operations.

- ✓ Easy to orient the suction hood.
- ✓ Built-in LED lighting.

Tube 700 mm • Ø 45 mm • Weight 3.8 kg

Clinic finishing box

Ref. 080534C

Laboratory finishing box

Ref. 080534L

Ref. 080534AC

Sirocco S and finishing box for clinics. Together they form an extremely useful and reliable partnership for a clinic environment, allowing for minor polishing and reworking operations.

- ✓ Large screen and access.
- ✓ LED lamp for perfect illumination.
- ✓ Great working ergonomics.

Height 365 mm • Width 290 mm
Depth 290 mm • Weight 5.5 kg

Large finishing box

Ref. 080212

Finishing box that is fully compatible with the Sirocco M and L suction units with which it forms an extremely useful and reliable tandem for a clinic and laboratory environment, allowing small polishing and refinishing operations.

- ✓ Spacious and robust design.
- ✓ Large screen and access.
- ✓ LED lamp for perfect illumination.
- ✓ Great working ergonomics.
- ✓ Comfortable and practical armrests.

Ref. 080534AL

Sirocco S suction unit and a dental laboratory finishing box that is fully compatible with the benchtop unit, forming a very compact and balanced unit.

- ✓ Spacious and robust design.
- ✓ LED lamp for perfect illumination.
- ✓ Comfortable and practical armrests.

Height 365 mm • Width 345 mm
Depth 400 mm • Weight 5.5 kg

Sirocco M and L

Ref. 080536 - Ref. 080537

These are two robust, quiet and highly reliable suction units, the M model being particularly practical for use under the workbench and the larger capacity L model very useful in CAD/CAM suction systems.

Its brushless motor extends its service life by five to ten times compared to traditional models. They incorporate a connection for an external micromotor and a milling machine that will operate synchronously with the suction unit. In addition, its ergonomic design with handles and wheels facilitates its use and mobility in the clinic and laboratory.

Depending on requirements, you can choose to use disposable bag filters or reusable HEPA filters, or even a ULPA filter, as well as three different arm types; flexible hose for connection to other devices, swivelling snake arm or articulated arm, which are also equipped with different suction hoods.

- ✓ Extensive set of fully compatible accessories.
- ✓ Exceptionally quiet operation.
- ✓ Easy to use and change filter.

Alginate mixer

Ref. 080515

CE Medical Device MDR 2017/745

(L) 300 x (W) 310 x (H) 195 mm | 3,9 kg

Useful tool when making alginate paste in the dental clinic. Its operation is easy: just place powder and water in the bowl and select the rotation speed (fast/slow) by pressing the button. While rotating, the user can mix the paste with a spatula till it reaches the appropriate consistency and texture.

The user can control visually the process at every stage, and this guarantees that the paste made is in optimal conditions for application. In order to make cleaning easier the bowl is detachable. It is factory supplied with a bowl and a special plastic spatula.

Ref. 080515-02

Bowl	750 cc
Diameter	130 mm
Height	110 mm
Weight	0,2 kg

Dimensions	250 x 175 x 230 mm (con taza)
Weight	3 kg
Power	60 W

Ref. 080515-02

Automatic mixing alginate

Ref. 100191

Just fill the bowl with alginate and water, put it into the machine, press the button, and in a few seconds you will achieve a completely homogeneous mixture, ready for use. Silent, small, comfortable and above all economical and reliable. Factory supplied with a bowl set, a plastic spatula and a practical water dispenser. It can also be used as plaster mixer with astonishing results.

The machine is factory supplied with four bowls, a practical water dispenser, a mixing stick, a spatula and a holder.

MAXIMUM MIXTURE
80 grs. Alginate + water

Dimensions	265 x 205 x 305 mm
Weight	17 kg
Voltage	230 V 50/60 Hz
Power	350 W

(L) 300 x (W) 420 x (H) 430 mm | 18,5 kg

Tight tank for alginate

Ref. 100189

Dimensions	220 x 150 x 190 mm
Weight	0,467 kg
Capacity	1 kg

(L) 220 x (W) 155 x (H) 200 mm | 0,62 kg

Silicone mixer

Ref. 100360

Impression material mixer simple, fast, reliable and safe. With small size to be located anywhere in the laboratory. The cartridge insertion/removal operation is easily performed within a few seconds.

The mixer has three adjustable pouring speeds to cover the needs of each job. Its amazing sturdiness together with the power of its motors generate a totally fluid mass, with optimum viscosity and totally free of bubbles without any effort. All this means reduction of time, material and the improvement of the quality of the works.

Compatible with almost cartridges type 380 ml present in the market. Suitable for 99% of silicones.

Height	290 mm
Width	170 mm
Depth	250+150 mm
Weight	7,1 kg
Environment temperature	5-40°C
Supply	240 V 50 Hz
Power	150 W
Push	450 kg +-10

Vacuum forming machine

Ref. 080542

It is cheap, easy to use and has an attractive design. It has a powerful aspiration motor with automatic connection when the sheet holder goes down. The carbon heater allows a progressive and uniform heating of the material that is going to be formed. It can be used with square sheets. Is supplied with a plane model holder and with a basket that can be filled with grit (a can is included with the machine) so forming depth is reduced.

Sheets \square from 125 to 134 mm
Sheets \emptyset from 125 to 134 mm
(adapter available for \emptyset 120, not included)

Dimensions	310 x 275 x 260 mm
Weight	4.6 kg
Power	925 W

(L) 300 x (W) 270 x (H) 430 mm | 6 kg

Standard square thermoforming sheets of 127 x 127 mm. Made of high quality plastic with FDA approval and CE marking certifications.

There is no soot, nor fumes during the heating. As they do not contain recycled materials, they do not tear while subjected to vacuum. They are available in a wide range of thickness and types.

NEW

Double packaging (inside-outside).
For all types of use.
CE Dispositif médical

Pressure former PlastPress

Ref. 080544

The most compact positive pressure machine on the market. Greater accuracy in the forming process and lower noise compared to vacuum machines. Practical and versatile, it accepts round and square sheets up to 6 mm thickness. It must be connected directly to a compressor (between 3 and 8 bar).

(L) 310 x (W) 270 x (H) 310 mm | 8,5 kg

NEW

Pressure former

Ref. 080543

The strong pressurization allows precise molding, regardless of the cut of the model, as well as various thicknesses (0.5 to 4.0 mm). Square and round sheets (127, 125, 120 mm) can be used.

Dimensions	260 x 410 x 545 mm
Weight	15 kg
Power	450 W
Pressure	4-6 bar

Drying oven for thermoforming sheets

Ref. 080118

A fan circulates the hot air producing an uniform drying.

- ✓ Draws out moisture and keeps dry thermoforming sheets, to avoid the formation of pores.
- ✓ Drying of plaster models, instrument, etc.
- ✓ 6 stainless steel trays.
- ✓ Stainless steel housing.
- ✓ 24 hour timer.

Dimensions	450 x 340 x 310 mm
Weight	8,3 kg
Power	550-650 W
Temperature	35-75°C

Inox

Water bath

Ref. 080078

This machine is extremely useful when working with applications that need a water bath that keeps the water temperature accurately (polymerisation of small elements, wax sheets for biting registers, etc). It has a 1 litre stainless steel tank and it is easy to clean. The body is made in high density polyurethane, resistant to chemical agents.

Bath temperature control is made by an electronic thermostat easy to use and accurate when keeping the programmed temperature.

Temperature range is from 30°C to 75°C. A powerful heater allows reaching the set temperature in a few minutes.

Height	146 mm	Voltage	230 V
Width	230 mm	Temperature range	30-75 °C
Depth	195 mm	Power	310 W
Weight	1.7 kg	Capacity	1 l.

 (L) 300 x (W) 300 x (H) 200 mm | 2 kg

Dry piston compressors

NOT SUITABLE FOR MILLING MACHINES.

Family of four compressors consisting of two sizes of 80 and 160 litres/minute to which a dryer with automatic drain can be coupled.

Extremely quiet operation (60 dB), easy maintenance (dry piston) and excellent reliability.

They are supplied with two pressure gauges (boiler and service pressure), outlet pressure regulator and complete set of valves for draining. The service pressure can reach 8 bars.

CERTIFICATE by TÜV SÜD Type certificate N° 12202200491258001
Directiva 2014/29/UE (pressure vessels)

How do I know if my compressor complies with the European safety regulations?

It is easy to find dental compressors made in the East that do not comply with current European safety regulations.

For this reason, it is advisable to check its features and security stamp: it is a plate welded to the tank similar to the attached picture. Next to the CE mark, you can see the number of the Notified Body that has validated its adaptation to European standards.

1. Ref. 110340 is also available with HEPA filter (H14) Ref. 110340H
2. The activated carbon filter Ref. 110300-53 is available as an accessory for all compressors.

Wet ring suction unit

Ref. 100345

Designed for a simple and reliable operation, the unit gives a quick response: it detects the start-up signal and reaches the optimum vacuum level in a record time. Its operation is extremely silent and it does not need any maintenance, since this technology automatically separates the air and the water with debris.

The suction power is always kept stable, with no noticeable ups and downs or failures. The unit is useful for intensive use workplaces, or for two workplaces in case of moderated use.

- ✓ ON/OFF pedal.
- ✓ Displayed speed.
- ✓ Right & Left turning ability.
- ✓ Overload protection function.
- ✓ Fault warning function.

RPM	35000 rpm
Torque	3.0 N-cm
Power	70 W
Voltage	0~33 V
Handpiece weight	215 g
Burs diameter	Ø 2.35 mm

Also available in graphite color
Ref. 100240

Prime 221 - Induction

Ref. 100236

- ✓ Brushless motor.
- ✓ Manual or pedal speed control.
- ✓ Displayed speed.
- ✓ Right & Left turning ability.
- ✓ Overload protection function.
- ✓ Fault warning function.

RPM	50000 rpm
Torque	5.8 N-cm
Power	120 W
Voltage	0~36 V
Handpiece weight	205 g

Calypso 4l. ultrasonic cleaner

Ref. 080422

The "Calypso" model is a last generation Ultrasonic Cleaner that includes the latest innovations: Sandwich type transducers, with 100 W real power transmitted to the tank; working frequency of 40 KHz., representing an optimum compromise between sonority and cleaning power; electronic time control run by a microprocessor, with digital display and warning acoustic signals; automatic heating system of the cleaning liquid; high density polyurethane body, a material resistant to chemical agents; tank of 4 litre capacity and waste pipe; etc. All these characteristics are complemented by an attractive line of careful design.

The machine is supplied with the following accessories:

- ✓ A stainless steel basket for equipment cleaning.
- ✓ A glass for cleaning of little instruments and its support.
- ✓ A lid that eliminates the noise while working and prevents dirt coming into the cleaner.
- ✓ Cleaner tweezers (Ref. 070520)

Height	220 mm
Width	425 mm
Depth	270 mm
Weight	4,5 kg
Tank capacity	4 l
Voltage	230 V - 50/60 Hz
Transducer power	100 W
Frequency	40 khz

(L) 420 x (W) 360 x (H) 300 mm | 9 kg

Ref. 080422-26
Long basket (not included, optional)

Ultrasonic bath: 5,8l - 3,4l - 2,8l

Made of stainless steel: high resistance to wear and tear and long service life. Easy-to-use digital time control. It has a drain on the side. Time from 1 to 99 minutes. Temperature from 1 to 80°C. Suitable for cleaning 3D printed models with resin.

Intraoral camera (with autofocus system)

Ref. 100336

- ✓ 21.5-inch LCD touch screen.
- ✓ High definition camera (4K).
- ✓ Autofocus.
- ✓ Image and video recording on USB memory.
- ✓ QR code for downloading images via WIFI.
- ✓ Support bar.
- ✓ Android system.
- ✓ Display of 1 or 4 images on screen.

Endodontics motor (wireless)

Ref. 100350

- ✓ Optimized design for user interface
- ✓ Ergonomic and compact body.
- ✓ 5 memory programs.
- ✓ From 100 to 600 r.p.m.
- ✓ Auto and Autostop inverse functions.

Dimensions	120 x 85 x 215 mm
Weight	0,3 kg
Maximum	100-600 rpm
Torque	1-4 N-cm
Voltage	230 W
Power supply	Battery

(L) 240 x (W) 170 x (H) 80 mm | 0,7 kg

Apex locator

Ref. 100330

- ✓ Automatic calibration, LCD display clear and accurate image.
- ✓ Different colours.
- ✓ Sterilizable accessories.
- ✓ Rechargeable battery.

D7 tabletop ultrasonic scaler

Ref. 100318

Scaling + Periodontics + Endodontics with liquid reservoir or drug treatment.

Satelec handpiece, removable and autoclavable at 135° type with 8 point-inserts.

Dimensions	190 x 240 x 230 mm
Weight	1,2 kg

(L) 360 x (W) 250 x (H) 185 mm | 2,7 kg

Composite heater

Ref. 080077

Device to keep composite syringes warm.

Dimensions	110 x 97 x 135 mm
Weight	0,742 kg
Temperature	40-50 y 70°C
Ø of holes	16 mm
Power	100 a 240 V

LED C. curing light

Ref. 100320

Battery powered, it has a desktop base/charger, with no uncomfortable cables in the lamp. Its surprising lightness makes it a very pleasant working tool.

The optical fibre tube is very easy to dismount and sterilize. The light pulses can be regulated in four different ways.

Dimensions	263 x Ø 23 mm
Weight	0,12 kg
Power	100-240 V 50/60 Hz
Light output	850-1000 mW/cm²

(L) 230 x (W) 75 x (H) 170 mm | 0,64 kg

Whitening lamp

Ref. 100340

Wide lighting range (from 420 to 472 nm) and high power (up to 2000 mW/cm²). Easily adjustable in height and orientation due to its practical curved arm. Its digital display shows the power, times, etc. of the whitening process.

It also has a remote control. It is factory supplied complete, ready for use, and with 20 disposable mouth splints, two protection goggles, and a lip retractor.

Dimensions	500 x 500 x 1.110 mm
Weight	4 kg

(L) 615 x (W) 350 x (H) 300 mm | 7 kg

Whitening lamp

Ref. 100341

- ✓ Wide spectrum of illumination.
- ✓ 5 Blue lights: from 430 to 490 nm.
- ✓ 2 high power Red lights: 610 to 650 nm.
- ✓ 3 different types of LED light sources: blue, red, (red + blue).
- ✓ Light output power: up to 2,327 mW/cm.
- ✓ 8 purple lights with sterilization effect.
- ✓ Made of metallic material, in appearance elegant and easy to assemble.
- ✓ Adjustable bleaching time.
- ✓ Power supply: 100-240 V, 50/60 Hz.

Dimensions	560 x 560 x 1.700 mm
Weight	4 kg

(L) 670 x (W) 400 x (H) 300 mm | 19 kg

Tank for distilled water

Ref. 080620

A tank specially designed for the storage and supply of distilled water under pressure in the dental sector. Made of stainless steel, it features a pressure regulator and a double safety valve.

Before filling the tank, it must be properly cleaned and sterilized. Do not use detergents containing hydrochloric acid, hypochlorous acid, etc.

- ✓ Pressure: 5 bar
- ✓ Connection: Ø 6 mm.
- ✓ Made of stainless steel
- ✓ Pressure regulator and a double safety valve.

Capacity	18 litres
Weight	4,7 kg

Biological spores incubator

Simple and easy to use spore incubators. They are essential to carry out the necessary tests that confirm the proper performance of the sterilization devices. Two models are available: **Elite**, with digital display and adjustable temperature; and **Practic**, very functional and economical. Both have four cameras to be able to perform as many verifications at the same time.

The **Elite** model also has a screen that indicates the temperature at which the test is performed and the time remaining until it ends. Its electronic control also alerts of anomalies such as power outages to avoid incorrect results.

Both devices perform the test at 57.5°C, although the Elite model also allows operation at 35°C depending on the type of spores used.

35°C +- 2,5°C for *Bacillus Subtilis*
57,5°C +- 2,5°C for *Geobacillus Stearothermophilus*

Distiller/decalcifier

Ref. 100210

Simply fill the tank with tap water to get 4 litres of distilled water in around 5 hours. The cleaning of the tank is easy and quick. The water produced is very pure (between 2 and 10 mg/ litre of solid residue) and can be used in a large number of applications in the dental clinic and laboratory (autoclaves, creation of compounds, steam generating machines, etc.).

The appliance is supplied with a 4-litre PVC tank, a set of activated carbon filters and a can of citric acid to clean the tank.

IMPORTANT: The water supplied for the appliance is "DISTILLED". However, it cannot be used for syringes, vials, cleaning wounds and generally any surgical application that requires TRI-DISTILLED purity.

Ref. 100210-01

Distiller cleaner refill.

Ref. 100210-02

Spare still filters.

Dimensions	280 x 250 x 365 mm
Weight	3,5 kg
Voltage	230 V 50/60 Hz
Power	580 W
Capacity	4 l.

Autoclave 18-D, class B 18 L

Ref. 100365

icanCLAVE

- ✓ Class B 18-liter desktop autoclave.
- ✓ High quality internal components of Italian, Japanese and American brands.
 - ODE valves.
 - ULUAK vacuum pump.
 - ULKA water pump.
- ✓ Ultra quiet (noise level below 70 dB).
- ✓ Triple fractionated vacuum system with an independent steam generator, which guarantees fast and safe sterilization cycles.
- ✓ High precision control system for perfect sterilization results (EN13060).
- ✓ Self-diagnosis with error codes.
- ✓ Fully automatic with pre-programmed sterilization cycles.
- ✓ Stainless steel chamber and door, with electro-polished finish.
- ✓ Open type water tank, which allows easy filling and cleaning.
- ✓ LCD screen, which shows information about the cycle process:
 - time, temperature, pressure, process alert.
- ✓ Different languages to choose.
- ✓ Print the sterilization report and display available in several languages.
- ✓ Includes USB and printer.
- ✓ Test: Vacuum test / Bowie & Dick test / Helix test.
- ✓ Pressure safety valve prevents overpressure in the chamber and steam generator.

Camera dimensions 247 / 350 mm

Voltage	220-240 V 50/60 Hz.
Circuit breaker	F16 A / 400 V
Nominal power	1750 V
Sterilization temperatures	121 / 134 °C
Distilled water tank capacity	2.5 litres
Operating temperature (°C)	5-40
Relative operating humidity	Max. 80 %, not condensed
Max. level of noise	< 70 dB
Atm. operating pressure (kPa)	76-106

(L) 690 x (W) 575 x (H) 525 mm | 51 kg

Filling tank.

Autoclave icanCLAVE 3F

Ref. 100367

icanCLAVE

icanCLAVE 3F is super-fast autoclave, especially for the sterilization of unwrapped instruments, which greatly improves the turnover rate of surgical instruments and the convenience of small operations as dentistry.

- ✓ **Printer port:** It is used for connecting an external printer print the cycle report automatically.
- ✓ **USB port:** it is used for connecting a USB disc, all sterilization data are automatically output in the USB disc and can be ready directly in any PC and stored electronically.
- ✓ **Internal Memory:** The last 9999 cycles can be automatically stored in the autoclave system, which can be printed out at any time.
- ✓ **Barcode label printer port:** It is used for connecting an optional barcode printer prints barcode labels that contain the information related to the sterilization cycle.
- ✓ **Suitcase for transport.**

CHARACTERISTICS:

- ✓ **Standard pre-programmed cycles:** Quick S, Standard B, Soft B, Prion 134°C, B&D Test, Helix Test, Vacuum Test.
- ✓ Other cycles: Descale (cleaning steam generator and tube).
- ✓ Steam generator
- ✓ External water reservoir and waste water reservoir.
- ✓ Door system.
- ✓ Color touch screen.
- ✓ User friendly interface
- ✓ Warning system.
- ✓ Atmospheric pressure identification system
- ✓ **Safety system:**
 - Over pressure safety valve.
 - Over temperature switch.
 - Safety lock system preventing improper door lock.
 - Circuit breakers protecting the machine when it has short-circuited or over current.
 - Automatic warning for maintenance.

Touch screen.

Automatic bag sealer

Ref. 080435

- ✓ 7" touch screen with indications.
- ✓ Quick heating system for a perfect seal.
- ✓ The sealing temperature can be regulated by the user.
- ✓ Its integrated printer allows marking the obtained records, for a correct traceability, both in the clinic and in the laboratory.
- ✓ In accordance with standards ISO11607-2: 2006 and EN868-5-2009

Sealing speed	10 m/minutes

Air purifiers

Family of air purifiers of three different sizes. They act on the stale air in any room, eliminating dust, dirt and germs. After the treatment, the air is much cleaner and more breathable. It should be emphasized that poor air quality favors the appearance of diseases, especially of a respiratory type.

The purification process begins with a battery of filters of three different levels: bacterial HEPA, activated carbon and photocatalytic. Subsequently, a highperformance UV lamp continues the cleaning work.

* Purification is completed with ionization and the possibility of activating an ozone generator. After the treatment, we can speak of a highly purified and quality air. There are three different sizes depending on the volume of the room to be treated.

Purifier 25 m²

Anodizing unit

Ref. 100295

This device allows you to process titanium dental elements quickly, easily and economically. The results are comparable to products belonging to a much higher category.

- ✓ Corrosion and wear resistance.
- ✓ Better adhesion and surface finish.
- ✓ Less release of metal ions.
- ✓ It works with a solution of water (600ml) and sodium bicarbonate. (20 g).
- ✓ Anodizing time: 5 seconds.

Appearance:

The anodic layer can be colored with different shades. This is especially interesting when the anodised element serves as a support for a translucent material such as zirconium or for bars on implants.

Depending on the voltage, different shades

will be obtained. For example, at 60 V you get an attractive golden shade and at 75 V you get a pink shade, highly appreciated in the dental sector. The colouring process takes only 5 seconds.

Dimensions	207 x 245 x 160 mm
Weight	2,73 kg
Voltage	10-80 V
Power	100 W
Power supply	AC220-240 V, 50/60 Hz

Explanatory video 

UV cabinets

Family of UV sanitizers of three different sizes. The effectiveness of ultra violet rays is known to eliminate germs from any surface. In the field of hygiene, they are widely used in different sectors: the elements to be sanitized are introduced into the chamber where they

will be subjected to UV light for a defined time. After the process, a good part of the microorganisms present will have disappeared.

Ref. 100500

Ideal for small objects such as mobile phones, masks, key rings, coins, jewelry, etc. Highly recommended for personal use. With drying function through heating resistance.

Ref. 100502

Medium-sized. Its camera allows to process the same type of articles as the previous model, but in greater quantity; or if you prefer, larger objects. Ideal for clinics and laboratories.

Ref. 100504

The interior of the cabinet is made entirely of easy-to-clean stainless steel. Contains 10 levels of trays in which instruments can be stored. The deposited elements will be subjected to the action of UV rays.

Purifier / Nebulizer

Ref. 100520

High efficiency purifier-nebulizer device, capable of atomizing the disinfectant solution creating a very fine mist that penetrates every corner.

- ✓ The droplet size can be adjusted, as well as the jet launch distance.
- ✓ Using the appropriate products, it is possible to efficiently disinfect large surfaces in just a few minutes (up to 100 m² in just 10 minutes).
- ✓ Its 5 l tank. allows spraying many square meters on a single charge.
- ✓ The reduced weight of the nebulizer -about 3 kg-, together with the practical banner tape that is included, allows a comfortable, efficient and safe use.
- ✓ The device is essential to disinfect medium-sized surfaces.

Height	250 mm

Extraoral suction system

Ref. 100347

Position the mouthpiece next to the patient's mouth and avoid the spread of all types of aerosols, particles in suspension, vapors and odors in the clinic. Greatly reduce the risk of cross contamination between professionals and patients and protect respiratory health.

PRODUCT DESCRIPTION

- ✓ Two power levels.
- ✓ 2 filter cartridges composed of:
 - Coarse filter for small particles.
 - Active carbon filter.
- ✓ HEPA H13 filter.
- ✓ UV light.
- ✓ Plasma generator.
- ✓ Ergonomic shape and easy to move to have a good working position.
- ✓ Semi-rigid suction arm, self-supporting and easy to clean.
- ✓ Easy cleaning housing.
- ✓ Hours of use counter. *

TECHNICAL CHARACTERISTICS

- ✓ Two power levels (50-100%).
- ✓ Noise: ≤60 dB.
- ✓ Flow: 4000 L / min.
- ✓ Maximum vacuum: -25 kPa.
- ✓ UV lamp: 254 nm (approximate life 10000 h).
- ✓ Plasma generator: 5000 V (plasma 20000 h).
- ✓ Hepa grade: H13 (0.3 µm, > 99.97%).

* More than 12 h. continuous work without overheating.

Height (arm not included)	755 mm
Width	330 mm
Depth	320 mm
Weight (arm included)	30 kg
Power supply	220 V 50/60 Hz
Consumption	1000 W
Arm length	1,3 m

***Observation for maintenance:**
It is recommended to replace the filter element after one year of use.

(Kit) Finishing table - Made in Spain

Ref. 100301 K2

- ✓ Metal table, wood worktop.
- ✓ Chair for workstation.
- ✓ Polishing lathe + 2 trays.
- ✓ Micromotor.
- ✓ LED lamp.

GIFT:

- Magnifying glass.
- Magnet bur holder.

Chair for workstation

Wheels with safety brake
(EN 1335-2:2009)

Ref. 100300

(L) 950 x (W) 610 x (H) 100 mm | 63 kg

Finishing table - Made in Spain

Ref. 100301

Metal work table with wooden worktop. Assembly is simple. They have all the elements and accessories for work in dental environments: 2 sockets, shelf, drawer, etc.

- 1 100301-04 Aspiration peg.
- 2 100301-05 Peg support.
- 3 100301-02 Metal tube.
- 4 080530-04 Flexible tube (1 m.)

(L) 900 x (W) 600 x (H) 660 mm | 46 kg

Work chairs

Work chairs specially designed for the dental laboratory.

Comfortable, ergonomic and easy to clean. Allow 1 seat height adjustment. The material used is spongy polyurethane in black.

Ref. 100297 Ref. 100298

Max. seat height	660 mm	555 mm
Min. seat height	460 mm	420 mm
Seat depth	450 mm	450 mm
Seat width	460 mm	460 mm
Weight	9 kg	8 kg

Without wheels
Ref. 100298

Wheels with safety brake (EN 1335-2:2009)

With wheels
Ref. 100297

With footrest.

Work chair

Ref. 100299

4 different regulations allowed: seat height and inclination and backrest height and angle of inclination.

Max. height	555 mm
Min. height	420 mm
Depth	450 mm
Width	460 mm
Weight	10.3 kg

Wheels with safety brake (EN 1335-2:2009)

Work chair

Ref. 100300

4 different regulations allowed: seat height and inclination and backrest height and angle of inclination.

Max. seat height	515 mm
Min. seat height	390 mm
Seat depth	420 mm
Seat width	420 mm
Weight	9 kg

Wheels with safety brake (EN 1335-2:2009)

(L) 610 x (W) 610 x (H) 325 mm | 10,5 kg

2 wheels trolley

Ref. 100451

NEW

- ✓ Made of stainless steel.
- ✓ Removable tray (495 x 345 mm)

5 wheels trolley

Ref. 100452

NEW

- ✓ Made of stainless steel.
- ✓ Removable tray (495 x 345 mm)

Scanner trolley

Ref. 100450

NEW

Electric mobile trolley

Ref. 100305

Made of steel sheet and enameled in white.

- ✓ 3 trays of 40 x 30 cm.
- ✓ 2 sockets to power the equipment.
- ✓ 4 wheels with smooth and balanced movement.

(L) 510 x (W) 420 x (H) 840 mm | 15 kg

Electric mobile trolley

Ref. 100306

Made of steel sheet and enameled in white.

- ✓ 3 glass trays.
- ✓ 2 sockets to power the equipment.
- ✓ 4 wheels with smooth and balanced movement.

(L) 575 x (W) 560 x (H) 845 mm | 25,5 kg

Electric mobile trolley

Ref. 100307

Made of steel sheet and enameled in white.

- ✓ 3 trays of 290 x 396 mm
- ✓ 3 sockets to power the equipment.
- ✓ 4 wheels with smooth and balanced movement.
- ✓ Weight supported per tray: 5 kg

(L) 430 x (W) 520 x (H) 860 mm | 12 kg

Electric mobile trolley

Ref. 100309

NEW

Electric mobile trolley with wheels for the dental clinic. Made of resin and steel sheet enameled in white.

- ✓ 3 sockets to power the equipment.
- ✓ 3 drawers.
- ✓ 1 power sockets.
- ✓ White colour.
- ✓ Smooth glide.

(L) 480 x (W) 540 x (H) 840 mm | 21 kg

Electric mobile trolley

Ref. 100308

Made of steel sheet and enameled in white.

- ✓ 3 trays of 290 x 396 mm.
- ✓ 3 sockets.
- ✓ 1 drawer.
- ✓ 4 wheels with smooth and balanced movement.
- ✓ Weight supported per tray: 5 kg

(L) 430 x (W) 520 x (H) 860 mm | 16 kg

TITAN 8 steam cleaner

Ref. 100202

Professional use

Is the first option.
Distilled Water is loaded
directly into the boiler.

NEW

Dimensions	360 x 270 x 420 mm
Power	2200 W
Voltage	220 V, 50/60 Hz
Pressure	8 bar
Weight	12,5 kg
Boiler	3 L

- ✓ Made of stainless steel with high quality components.
- ✓ Digital pressure switch.
- ✓ Full and lack of water indicator.
- ✓ Connection cable with built-in differential switch.
- ✓ Drain tap with safety lock.

TITAN AUTOFILL steam cleaner

Ref. 100203

It also has a pump to suck distilled water
from an external bottle.

NEW

External bottle
not included.

Dimensions	36 x 27 x 42 cm
Power	2200 W
Voltage	220 V, 50/60 Hz
Pressure	8 bar
Weight	12,5 kg
Boiler	3 L

TITAN PLUS steam cleaner

Ref. 100204

Professional use

Also has an internal tank for distilled
water storage.

You can load water into this extra tank without
having to turn off the machine and wait for the
pressure inside the boiler drops. Simply open the
auxiliary tank cap and pour more water when you
need it.

Safer and without interruptions.

NEW

Distilled
water tank

Dimensions	380 x 370 x 450 mm
Power	2600 W
Voltage	220 V, 50/60 Hz
Pressure	4-8 bar
Weight	18 kg
Boiler	3 L
Auxiliary tank	2 L

Additional information: 100202, 100203, 100204

They are supplied with the following accessories:

- ✓ Power cord with built-in protection.
- ✓ Fine and long replacement nozzle.
- ✓ Replacement safety cap and 2 gaskets.
- ✓ Funnel and measuring cup (300 ml).

In models with direct connection to the water
intake: Necessary hoses for water inlet/outlet
connection.

- ✓ With drain for cleaning the tank with citric
acid with (see instructions).

Citric acid

Ref. 100210-01

Ref. 100202

- ✓ Manual filling.

Ref. 100203

- ✓ Manual filling.
- ✓ Autofill without
previous cooling
(external bottle).

Ref. 100204

- ✓ Manual filling.
- ✓ Autofill without previous
cooling (integrated tank).
- ✓ Direct water net connection.

Steam Machine

They are ideal for cleaning tasks in dental laboratories due to their abundant flow of dry steam.

Both devices are supplied with water level meter and funnel.

Moderate use
